

***WE ARE LOOKING FOR HUMANS**

At b2 it doesn't matter if you are female, male or diverse, where you come from, what skin color you have or what you believe in. Our focus is on mutual respect and appreciation. That is why we are looking for humans! It is important that you are passionate about your job and fit in with us!

Join the b2 team

To strengthen our team on-site in Klaus, Vorarlberg (Austria) we are looking for a

IN-HOUSE TECHNICAL SALES SUPPORT (Human*)

Annual minimum salary according to collective agreement. The actual salary is above the CA & depends on professional qualification & experience.

Your tasks:

- You provide our international customers with advice on the practical application of our test systems.
- Technical inquiries are handled by you in a competent and reliable manner.
- You are supporting the internal sales team in the preparation of repair and service quotations. Further on, you are coordinating service cases and repairs.
- By analyzing errors, providing advice and assistance with service requests, you are making a significant contribution to customer satisfaction.

Requirements:

- You have completed an education in the field of electrical engineering, power engineering or electronics.
- Your open-minded personality and high level of reliability make you a valuable point of contact for our customers.
- Communicating in written and spoken English is easy for you.
- You are characterized by an independent and solution-oriented way of working.

We offer you a modern working environment with state-of-the-art tools and an open and motivated team. As part of a comprehensive training program, you will get to know our products and be introduced to your new role in a structured and incremental manner.

Trust and the sharing of knowledge are values on which our company is built. High voltage is guaranteed with us!

**All this sounds like a job that is made for you?
Then we are looking forward to your job application!**

Apply now!

We are an innovative and expanding high-tech company whose products ensure secure energy networks worldwide. Customers in more than 120 countries value our solutions for testing and diagnostics of medium voltage cables. Trust, respect and fairness have characterized our cooperation for over 20 years.
