

***WE ARE LOOKING FOR HUMANS**

At b2 it doesn't matter if you are female, male or diverse, where you come from, what skin color you have or what you believe in. Our focus is on mutual respect and appreciation. That is why we are looking for humans! It is important that you are passionate about your job and fit in with us!

Join the b2 team

To strengthen our team on-site in Koblach, Vorarlberg (Austria) we are looking for a

PROCESS OWNER PRODUCTION (Human*)

Annual minimum salary according to collective agreement. The actual salary is above the CA & depends on professional qualification & experience.

Your tasks:

- In your role as process owner production, you will be responsible for safety, quality, deadline keeping, and production costs, while ensuring that production runs smoothly.
- You will be the first point of contact for the production team in their day-to-day work, coordinating and assigning production tasks and lending a hand yourself when necessary.
- In your role, you will work closely with work preparation, production planning, and warehouse logistics and support the implementation of improvement measures.

Requirements:

- You have completed technical education.
- You have already gained practical experience in a manufacturing environment.
- You enjoy designing and implementing process flows and are happy to take on process responsibility.
- As a practical person, you possess a hands-on mentality and organizational talent.
- Ensuring consistently high product quality is one of your top priorities.
- You are able to support team members individually and according to the situation, and you enjoy using your social skills accordingly.

We offer you a modern working environment in a motivated, dynamic team. Further training and sharing knowledge are values on which our company is built. High voltage is guaranteed with us!

**All this sounds like a job that is made for you?
Then we are looking forward to your job application!**

Apply now!

We are an innovative and expanding high-tech company whose products ensure secure energy networks worldwide. Customers in more than 120 countries value our solutions for testing and diagnostics of medium voltage cables. Trust, respect and fairness have characterized our cooperation for over 20 years.
