

***WE ARE LOOKING FOR HUMANS**

At b2 it doesn't matter if you are female, male or diverse, where you come from, what skin color you have or what you believe in. Our focus is on mutual respect and appreciation. That is why we are looking for humans! It is important that you are passionate about your job and fit in with us!

Join the b2 team

QUALITY MANAGEMENT & EHS SPECIALIST (Human*)

Annual minimum salary according to collective agreement. The actual salary is above the CA & depends on professional qualification & experience.

Your tasks:

- You analyze, describe and accompany process flows in our company
- You will ensure the conformity of our process landscape with applicable standards
- In your role, you are the driving force behind our continuous improvement process
- You check the effectiveness of our processes by defining, creating and evaluating quality-relevant key indicators and figures
- In cooperation with team leaders, you monitor compliance with legal & internal requirements (legal compliance)
- You organize, plan and accompany internal and external audits
- Further on you also carry out QM & EHS relevant training for our team

Requirements:

- Interest in the interaction of different process flows
- Diligence and commitment regarding the documentation of QM & EHS processes and specifications
- Team player with a sense of responsibility
- Practical "hands-on" mentality
- Willingness to undergo further specialist training (e.g. to become a certified safety specialist)
- Good written and spoken English skills (in-house training possible)
- Professional experience and knowledge in the QM & EHS area are an advantage

We offer you a modern working environment in a communicative and motivated team. As part of a comprehensive training program, you will get to know our products and processes and will be introduced to your new role in a structured and step-by-step manner.

**Mutual trust and the sharing of knowledge are values on which our company is built.
High Voltage is guaranteed with us!**

Apply now!

We are an innovative and expanding high-tech company whose products ensure secure energy networks worldwide. Customers in more than 120 countries value our solutions for testing and diagnostics of medium voltage cables. Trust, respect and fairness have characterized our cooperation for over 20 years.
